CII Education Summit Redefining Education for the Emerging World

(25 June - 4 July 2020)

Dear Sir/ Madam,
Greetings from All India Council for Technical Education!

We are glad to inform you that to discuss the disruption in school and university level conventional education and its impact on the technology landscape, learning outcomes, academic calendars and industry recruitments, CII is planning a series of webinars, workshops, panel discussions under the umbrella of a digital summit cum exhibition titled 'Redefining Education for the Emerging World'. The various components under the summit will span across several days starting June 25. The summit will be inaugurated by Hon'ble Minister of Human Resource Development, Shri Ramesh Pokhriyal 'Nishank'.

This appropriately timed summit will cover topics both from school and higher education and will serve as a reference point for education stakeholders as they respond to the challenges posed by the pandemic. It will highlight the myriad changes in curriculum and pedagogy propelled by the loss in physical mobility. It will discuss the impact of corona-induced downturn, its effect on recruitment and hiring processes and how higher education institutes are responding to this development.

This virtual summit offers unique branding opportunities for companies, educational groups and institutes committed to enhancing the knowledge base and quality of education in this country during these times of great stress, uncertainty and opportunity, where rules are changing, and paradigms are being reset. The summit will see rich participation from the entire country as well as from overseas.

AICTE requests you to participate in the CII Digital Conference. To participate as delegate please register through the given
